LITTLE WOLF

We decided to start raising fund for mothers, in our project, for children called Little Wolf. It might help encourage others to donate money or CDs, stuffs... which could help us to raise our fund.

Main idea is to collect money that is to be sent to mothers who need support, if they do not have husbands or if they are unemployed. Many young mothers have huge problems to effort normal life to their children, through all these years of economic crash our country is still in huge crisis. Social and mother's help are very poor, so our women need all kind of help; their children are our future, too! Helping them you support your future life, ask yourself what will happen if your child screams for food or if out is cold and your child doesn't have appropriated cloths; what will happen then???

If you wish to help these idea and our children, you are welcome to do so. All of you who are interested will receive info about procedures.

THANK YOU

We will open new chapters until the end of year, we will have new members who are not from Serbia and this is happy novelty for us. Girls Youth would like to have more new members from other countries, so you are invited to join us!

We would like to thank to all our supporters, our Brothers and Sisters, great organizations and our Families for all help and support! We do not want to emphasize anyone because you are all great, thank you a lot!

Truly with respect,
Girls Youth
